

MOHIT MARATHE

Data Analyst

Pune, Maharashtra, India +91-8378013810 mohitmarathe88@gmail.com LinkedIn

PROFESSIONAL SUMMARY

Data Analyst with internship and hands-on project experience in SQL, Python, Excel, and Power BI, specialising in data cleaning, EDA, dashboard development, and business intelligence reporting. Skilled at transforming large datasets into clear, actionable visualisations. Google Data Analytics Certified.

CORE SKILLS

Programming & Querying: SQL (MySQL, PostgreSQL), Python (Pandas, NumPy)

Visualisation & BI Tools: Power BI (DAX), Tableau, Advanced Microsoft Excel

Analytical Skills: Data Cleaning, EDA, Statistical Analysis, KPI Tracking, Dashboard Reporting, Stakeholder Communication

WORK EXPERIENCE

Data Analyst Intern — Quadsync Tech Solutions, Pune, Maharashtra 11 May 2026 – 11 Jul 2026

- Performed data cleaning and EDA on business datasets using Python (Pandas, NumPy), improving data accuracy for downstream reporting.
- Built interactive Power BI dashboards with DAX measures and KPI cards, enabling stakeholders to monitor metrics by time, category, and region.
- Queried and joined multiple tables using optimised SQL (MySQL) to extract and transform analysis-ready datasets for weekly business reports.
- Identified data trends and anomalies through statistical analysis, delivering actionable insights to support data-driven decision-making.

DATA ANALYTICS PROJECTS

Sales Dashboard for Regional Performance

SQL, Power BI May 2026 – Jun 2026

- Queried and joined 3 sales tables covering 25,000+ rows across 12 months and 5 regions using optimised SQL joins.
- Engineered 10 interactive Power BI measures and KPIs, cutting manual report assembly from 8 hours to 2 hours per week.
- Identified a 14% post-festival sales drop in the South region; insight informed a targeted marketing recovery plan.

Forecasting Dashboard

SQL, Power BI May 2026 – Jun 2026

- Built a dynamic Power BI forecasting dashboard integrating time-series analysis to predict sales, crop, and demand trends.
- Applied Power BI's forecasting engine with DAX measures to present confidence intervals enabling proactive business planning.

Farming Crops Analysis Dashboard

Power BI Mar 2026 – Apr 2026

- Developed an interactive Power BI dashboard analysing crop data across regions and seasons – yield, soil quality, rainfall, fertiliser.
- Enabled data-driven decisions for farming resource allocation by identifying high-performing crops and regions.

CERTIFICATIONS & AWARDS

- Google Data Analytics Certificate**, Coursera (2025) – SQL, data cleaning, dashboards, and presentations.
- Top 5% – SQL HackerRank Challenge** (2024) – ranked top 150 of 3,000+ participants for advanced SQL problem-solving.
- Best Final Year Project**, RCP IMRD College (2025) – Power BI dashboard analysing academic performance across 6 departments.

EDUCATION

Bachelor of Computer Application (BCA) — R.C.P. Institute of Management Research and Development, Shirpur

Graduated 2026

- CGPA: 9.43 / 10 — SSC: 89.80% — HSC: 85.83%
